Dear Colleagues,

Thank you for consulting Environmental Health on this application, I have reviewed the submitted documents and plans. I am familiar with the area in question.

I have no objections to raise regarding this application. I will include an informative that should the application be successful the occupants of the site will need to apply for a licence to station caravans on their land in order to legally occupy the caravan park.

The licence will include conditions which must be adhered to and the park will be inspected on a risk rated basis to ensure compliance.

If you have any questions, please do not hesitate to contact me.

Regards
