Dear Olly,

I understand that you asked a question to the Secretary of State for Health and Social Care, Wes Streeting MP in October, asking for further details of the new GP Surgery in Great Western Park and the lack of progress we have seen in its development to date.

In your question you recognised that the integrated care board is supportive, but progress has stalled due to NHS England's involvement and asked whether integrated care boards should have the authority to direct primary care funding.

Mr Streeting promised to get back to you with a full explanation, and I was wondering if you were able to share any of the detail with us as you know we have been pursuing this matter for many years.

Yours sincerely

Councillor Bethia Thomas  
Leader of the Council
