Scope of responsibility

Vale of White Horse District Council ensures that its business is conducted legally and to proper standards, and that public money is safeguarded, accounted for, and used economically, efficiently and effectively. Under the Local Government Act 1999 the council makes arrangements for continuous improvement, with a view to economy, efficiency and effectiveness. The council must make arrangements for the governance of its affairs, facilitating effective exercise of functions, including the management of risk. In discharging this overall responsibility, the council is responsible for putting in place proper arrangements for the governance of its affairs, and facilitating the effective exercise of its functions, which includes arrangements for the management of risk.

The council has incorporated a Local Code of Governance within its constitution setting out key aims, principles and responsibilities for good governance. This is supported by a Code of Corporate Governance (The Code) setting out actions and behaviours needed to comply with the principles. This Code is consistent with the seven core principles identified in *Delivering Good Governance in Local Government: Framework: 2016 Edition* published by the Chartered Institute of Public Finance and Accountancy (CIPFA) and the Society of Local Authority Chief Executives (SOLACE). The Code is reviewed and updated annually, and the key focus is on sustainability i.e. economic, social and environmental and the need to focus on the longer term and the impact actions may have on future generations.

A copy of the Code can be accessed on the council's website: www.southoxon.gov.uk. However, a summary of the seven core principles upon which it is based can be found on page 10 of this document. Our contact address is: Democratic Services, Vale of White Horse District Council, Abbey House, Abbey Close, Abingdon, OX14 3JE. Tel: 01235 422520

This Annual Governance Statement explains how the council has complied with the Code, and how it met the requirements of regulation 6(1) (a) and (b) of the Accounts and Audit Regulations 2015 in relation to an annual review of the effectiveness of the council's systems of internal control, and the preparation and approval of this statement.

The responsibility for leading and directing the annual reviews of the effectiveness of the council's governance arrangements against the Code and providing ongoing oversight and robust challenge, sits with the council's Senior Management Team (SMT). When completed, the findings are reported to the Joint Audit and Governance Committee which identifies and monitors any improvement actions.

What is governance?

Governance is about how the council ensures that it is doing the right things, in the right way, for the right people in a timely, inclusive, open, honest and accountable manner. Good governance leads to effective:

- leadership and management
- performance and risk management
- stewardship of public money
- public engagement and outcomes for our citizens and service users.

What is the purpose of a governance framework?

The governance framework comprises the systems, processes, culture and values by which an organisation is directed and controlled, and activities through which it accounts to, engages with, and leads the community. It enables the council to monitor the achievement of its vision and strategic priorities and to consider whether those priorities have led to the delivery of appropriate services and value for money. The system of internal control is a significant part of the framework and is designed to manage risk to a reasonable level. It assures that in conducting its business, the council:

- operates in a lawful, open, inclusive and honest manner,
- makes sure that public money and assets are safeguarded from inappropriate use, loss and fraud, and are properly accounted for and used economically, efficiently and effectively,
- has effective arrangements for the management of risk,
- secures continuous improvement in the way that it operates,
- enables human, financial, environmental and other resources to be managed efficiently and effectively,
- properly maintains records and information, and
- ensures its values and ethical standards are met.

What is the Annual Governance Statement?

The council is required by the Accounts and Audit Regulations 2015 to prepare and publish an Annual Governance Statement (AGS) in order to report publicly on the extent to which we comply with our own local Code of Corporate Governance, including how we have monitored the effectiveness of our arrangements in year and on any planned changes to our governance arrangements in the coming year.

In this document the council:

- acknowledges its responsibility for ensuring that there is a sound system of governance,
- summarises the key elements of the governance framework and the roles of those responsible for the development and maintenance of the governance environment,
- describes how the council has monitored and evaluated the effectiveness of its governance arrangements in the year, and on any planned changes in the coming period,
- provides details of how the council has responded to any issue(s) identified in last year's governance statement,
- reports on any key governance matters identified from this review and provides a commitment to addressing them.

The AGS reports on the governance framework that has been in place at Vale of White Horse District Council for the year ended 31 March 2026 and up to the date of approval of the Statement of Accounts.

It should be noted however that any system of internal control is designed to manage risk to a reasonable level rather than to eliminate all risk of failure to achieve policies, aims and priorities; it can therefore only provide reasonable and not absolute assurance of effectiveness.

The council has had a Governance Assurance Framework, which underpins the AGS, in place throughout but has introduced a modified version based on the 2016 CIPFA guidance for the year ending 31 March 2026 and up to the date of approval of the AGS and Statement of Accounts.

The council is also aware that should the position change and a significant control issue is subsequently identified after the 31 March 2026 (and prior to the publication of the AGS in July), this will be brought to the attention of the Chief Financial Officer and an addendum provided to this statement.

What is a Governance Assurance Framework?

Assurance provides confidence, based on sufficient evidence, that internal controls are in place and are operating effectively and that priorities/objectives are being achieved. An Assurance Framework is a structure within which Members and Senior Management identify the principal risks to the council meeting its key priorities, and through which they map out both the key controls to manage them and how they have gained sufficient assurance about the effectiveness of those controls. The assurance framework underpins the statements made within the Annual Governance Statement.

An assurance process is in place to provide a framework for the annual assessment of the effectiveness of the governance arrangements operating within the council. This includes robust challenge by the council's Joint Audit and Governance Committee, Statutory Officers i.e. the Chief Executive, Monitoring Officer and Chief Financial Officer, and the Strategic Management Team.

In addition, 'the three lines of defence / assurance model' is in place which helps Members and Senior Management to understand where assurances are being obtained from, the level of reliance they place on that assurance and identify potential gaps in assurance.

The Three Lines of Assurance in effective Risk Management and Control

Assurance can come from many sources within the council. The Three Lines of Assurance is a concept for helping to identify and understand the different sources of assurance. The three sources are:

- The **First Line** (functions that own and manage risks such as operational management) has ownership, responsibility and accountability for directly identifying, assessing and controlling / mitigation risks.
- The **Second Line** (functions that oversee risks and ensures compliance such as Human Resources (HR), Finance, Information Technology (IT) and other control functions). This line monitors the effectiveness of risk management arrangements put in place by the first line.
- The **Third Line** (functions that provide independent assurance on the management of risks such as Internal Audit). In addition to internal governance arrangements, External Auditors, regulators and other bodies reside outside of the council's structure, have an important role in the council's overall governance and control structure. This framework helps the council understand how each contributes to the overall level of assurance and how best they can be integrated and supported. The following page summarises the council's assurance framework, which is based on the three lines of assurance model.

What is the council's Governance, Risk and Control Assurance Framework?

Annual Governance Statement (AGS)

Joint Audit and Governance Committee

(AGS Approval Committee)

Chief Executive, Chief Financial Officer, Monitoring Officer, Senior Management Team

(Provides oversight of the 3 lines of defence assurance framework)

1st Line of Assurance

Risk Owners/Managers

Functions that are accountable own and manage risk

Operational Management

Responsibility for directly assessing, controlling and mitigating risk

Design and implement risk control measures

Management / Supervisory controls

2nd Line of Assurance

Risk Control and Compliance

Functions that oversee risks

Financial Control

Inspection

Risk Management

Quality

Compliance

3rd Line of Assurance

Independent Risk Assurance

Functions that provide independent assurance

Internal Audit

External Audit

External Inspections

Review Agencies

Regulators

Support and monitor

Validate 1st and 2nd line

How has the Annual Governance Statement been prepared?

In preparing the Annual Governance Statement the council has:

- Reviewed the council's existing governance arrangements against the Code of Corporate Governance. This Code comprises the council's systems and processes, culture and values for the direction and control of the Authority and its activities through which it accounts to, engages with and leads the community. The Code shows the actions and behaviours taken by the council that demonstrate good governance and lists the evidence supporting the council's compliance.
- Assessed the effectiveness of the council's governance arrangements against the Local Code.

How does the council monitor and evaluate the effectiveness of its governance arrangements?

The council annually reviews the effectiveness of its governance arrangements to ensure it supports the delivery of sustainable service outcomes and value for money. The key sources of assurance that inform this review are outlined below:

Currently:

- Reports on Risk Management activity during 2025-26, continue to be reported monthly to SMT. There are regular review meetings with CEO and Deputy CEO's as well as individual SMT members. Strategic decision making, programmes and projects regularly report on risk as part of their project governance, any issues and key risks are escalated to the corporate risk registers for review at the quarterly JAGC. Supported by the work of Members and Senior Officers of the council who have responsibility for good governance.
- Promoting and supporting risk management as part of service planning
- The Internal Audit and Risk Manager (Chief Internal Auditor) prepared an annual report on the work of Internal Audit which concludes for the 12 months ended 31 March 2026, there is satisfactory assurance regarding South Oxfordshire District Council's overall control environment and the arrangements for governance, risk management and control. Where issues have been identified through internal audit review, they have worked with management to agree appropriate corrective action and a timescale for improvement. The Internal Audit and Risk Manager's annual opinion report for 2025/26 will go to Joint Audit and Governance Committee in July 2026 for publication alongside the final accounts in December 2026.

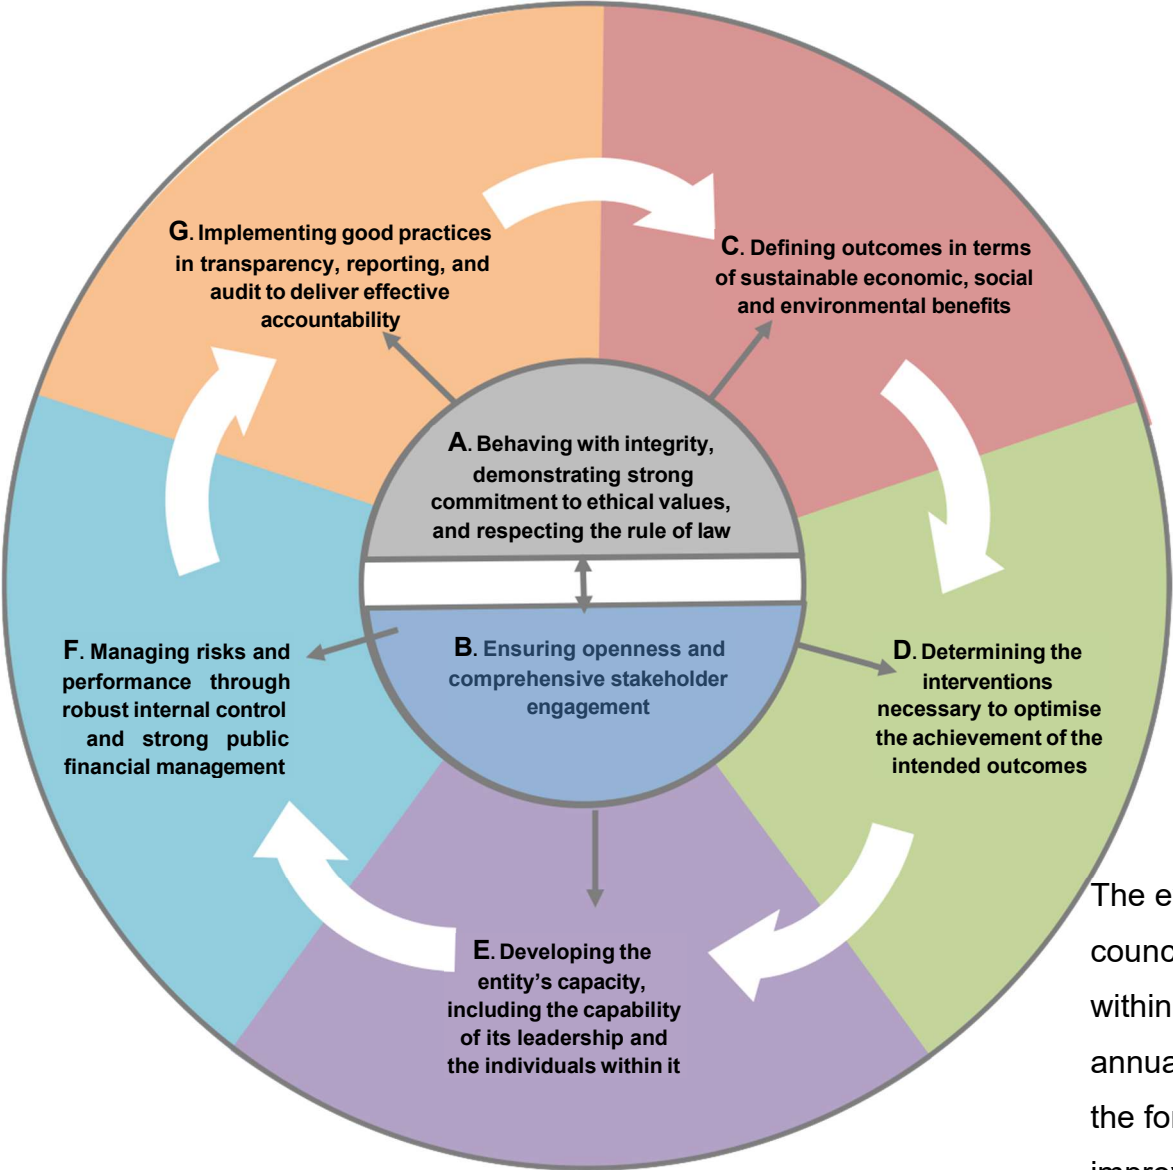

- Any comments made by the council's External Auditors, Bishop Fleming and any other review agencies and inspectorates will be included by final sign off in December.

Looking ahead:

- The development and implementation of a Governance Assurance Framework which enables the council to gain assurance that good governance actions and behaviours are operating within the council, is underway as part of the mitigation actions in Risk 3 of the Governance Issues and Improvement Plan progress update.
- Work has been delayed in assessing the council's Risk Maturity and defining the councils Risk Appetite due to the proposed Local Government Reorganisation.

What are the key elements of Vale of White Horse District Council’s Governance Framework?

The council aims to achieve good standards of governance by adhering to the seven core principles below, which form the basis of the council’s Code of Corporate Governance:

The evidence base for the actions and behaviours taken by the council in relation to each of these seven core principles is set out within the Code of Corporate Governance. Findings from the annual review of these core principles feed into the action plan for the forthcoming year, see Current Governance issues and improvement plan.

What are the key roles of those responsible for developing and maintaining the Governance Framework?

The Council	<p>Full Council: Adopting and making substantive changes to the Constitution. -Approving or adopting the annual budget and setting the policy framework Agreeing and/or amending the Terms of Reference for Committees, deciding on their composition and appointing Chairmen and Vice Chairmen to them.</p>
Joint Audit and Governance Committee	<p>JAGC: Provides independent assurance to the council on the adequacy and effectiveness of the governance arrangements, risk management framework and internal control environment. Promotes high standards of member conduct. Approves the Annual Statement of Accounts and Annual Governance Statement.</p>
Committees	<p>There are committees aligned to the council's corporate priorities. Scrutiny and Joint scrutiny committees hold Officers to account and scrutinise performance and hold Cabinet to account. Climate and Ecological Emergency Committees also advise Cabinet of climate emergency matters.</p>
Chief Executive and Senior Management Team	<p>Implements the policy and budgetary framework set by the council and provides advice to Committees and the council on the development of future policy and budgetary issues and oversees the implementation of council policy. Influences a corporate culture and fostering a culture of high ethical standards and integrity. Accountability for developing and maintaining the council's governance</p>
Chief Financial Officer (Section 151 officer)	<p>Accountability for developing and maintaining the council's risk and control framework. responsibility for the administration of the financial affairs of the council, in accordance with the provisions of Section 151 of the Local Government Act 1972 Contribute to the effective corporate management and governance of the council.</p>
Monitoring Officer	<p>To advise the council on ethical issues, standards and powers to ensure the council operates within the law and statutory Codes of Practice. Overall responsibility for the maintenance and operation of the Confidential Reporting Procedure for Employees. (Whistleblowing) and contributes to the effective corporate management and governance of the council.</p>
Internal Audit	<p>Provides independent assurance and annual opinion on the adequacy and effectiveness of the council's governance, risk management and control framework. Delivers an annual programme of risk-based audit activity, including counter fraud and investigation activity. Makes recommendations for improvements in the management of risk.</p>
External Audit	<p>Responsible for developing, maintaining and implementing the council's governance, risk and control framework. Contribute to the effective corporate management and governance of the council.</p>

Current Governance issues and improvement plan progress update

Ref	Risk/issue	Current actions	Future actions	Progress
1	A number of third-party contracts are up for renewal and review within a similar time period	All key programmes have been identified and resourced. Programme governance is in place to monitor and report on progress. In light of Local Government Reorganisation some programmes are working towards a contract extension with the current provider rather than being renewed. This action reduces the overall impact on the council.	Continuous monitoring and reporting with clear escalation of issues if required due to potential changes in operating landscape with Local Government Reorganisation plans.	All contracts have been reviewed and have been or are in the process of being procured and contracts signed for duration up to and after LGR timeframe. Renewed or extended to cover the LGR timeframe, ensuring the council maintain their statutory and non-statutory services during the LGR transition and beyond. Risk mitigated
2	Failure to react to the potential for future reduction in funding (fair funding levels), against the backdrop of devolution plans results in the councils being unable to undertake their statutory duties including the legal requirement to set a balanced budget and may become unsustainable as we move to Local Government Reorganisation.	Core SMT and SMT review and monitor the long-term financial sustainability of the council through regular financial updates. The revenue budget for 2025/26 and the estimated budget for 2026/27 agreed by Council in February 2025 were projected to be balanced by a sustainable use of reserves, based on current assumptions around expenditure and funding. The finance team continually monitor actuals against budgets throughout the year. Favourable outcome of MTFP based on fair funding review outcomes.	The finance team continually monitor actuals against budgets throughout the year. The Council is working on Local Government Reorganisation proposals and await the Government decision in July.	Risk reduced to possible likelihood, manageable impact.
3	Failure of Corporate Governance, leads to negative impact on service delivery and implementation of major projects that provide good value/service to residents, resulting in: 1.Poor service delivery and performance if procedures and controls not followed. 2.Ultra vires activity and lack of legal compliance 3. Fraud/corruption including gifts and hospitality 4. Financial unsustainability, poor investments and budget controls of major projects. 5.Unable to support council democratic functions/obligations.	Annual Governance statement produced with Annual Accounts on time. Annual budget reviewed and agreed as per council constitution. Strategic projects are being reported to Core SMT, to provide full visibility of all project initiatives and available capacity (support services), and in light of LGR have clarity on future council priorities and plans. Procurement framework adhered to for spend thresholds. Fraud & corruption: Clear guidance is provided to officers by the adopted Officer Code of Conduct. Directors of Service will be responsible for monitoring the application of the Code in respect of gifts and hospitality and Human Resources will have general oversight.	Projects and programmes register currently in development. 4 year programme plan is now in place . Monitor projects and programmes register once developed.. and progress on council plans annually. Directors of Service are required to review Gifts and Hospitality quarterly adhering to Officer Code of Conduct. Members training undertaken and Task and Finish group has been concluded making recommendations which have been enacted. Extra resource being considered. New CEO appointed with knowledge of process and agreed with council leaders, personal objectives to include these issues Governance Assurance framework	

			reviewed to take into account Local Government reorganisation.		
4 new	Failure to prevent corporate fraud activity will result in increased cost to the councils, legal challenge and loss of reputation	Regular Internal Audit review of financial control environment, assessing the effectiveness of fraud controls risk of fraud. The council has a desk-based benefit and council tax reduction scheme anti-fraud team. The council fully participates in NFI work (National Fraud initiative.) Regular comms updates to managers on fraud activities. The council has undertaken actions to investigate a potential fraudulent activity which tested the councils processes and procedures with lessons learnt on how to manage the impact.	Regular monitor with Fraud team.		
5 new	Failure to manage the implications and transition of LGR- Public Sector Reforms on SAV operations results in a challenge to our ability to sustain service performance outcomes at current/expected levels results in increased complaints and fines	SMT to monitor and action when necessary. Project led by Deputy Chief Executive with support from dedicated Programme board. Annual delivery and Directorate plans have been established to monitor resource pressures, reviewed on a regular basis by SMT. LGR budget provision for Phase 1 and 2 in place. S&V Programme team in place. Monitoring Officer circulated advice to cabinets and SMT on restrictions to new projects and spends 2026 -2027. LGR transitions programme team in place. Workstreams identified with leads from all councils involved in LGR. LGR – Public Sector Reforms risk register in place with two weekly reviews, reporting at JAGC as part of overall risk mgt progress			

.
